#### WOMENS INSTITUTE

We had a grand gathering for our February meeting when Dr. Souster of Ipswich, who is the Medical Director of the Overseas Division of the Methodist Church, was our guest speaker, his topic being his medical missionary work in the seemingly exotic islands of the Pacific. What a trip it must have been, palm trees bending their heads to brush the beautiful white sands, lapped by the blue frothy ocean, contrasting sharply with the disease and suffering these people can experience which, hopefully makes us extremely thankful for what they would consider the 'luxury' of our NHS. May all the Dr. Sousters of this world continue their vital work to enable all to live in an environment where T.B. and leprosy are "dead and buried" - most definately a thing of the past.

Our next meeting is on Thursday, 11th March at 7 pm when the guest speaker will be Mr. Williams, the Environmental Health Officer for Ipswich. His subject will be "Is your food safe to eat?" To find out - do please come along.

J. Banfield.
